Site Plan

Scale: 1" = 50'

- Proposed Use**
The proposed development is to be a Multiple Family Complex and will be subject to Development Plan Review as set forth in Section 157.304 in the Fort Wayne Zoning Ordinance.
It will consist of a mix of residential unit types with the breakdown as follows:
 - Parcel 1 – 1631 E. Pontiac Street (Former Coca Cola Bottling Plant identified as Buildings 1 and 2) will be renovated to create a mix of one and two bedroom units. The existing one story section of the of the original bottling works will be demolished to create a private courtyard and to provide light and air to first floor units in both Building 1 and 2. The northern most structure of the existing facility (Building 3) will be converted into a parking garage. A new multi-unit residential building is proposed for the southwest corner of the site that will include two bedroom flats. A signature open space or square will be provided along the Winter Street frontage that will be an amenity for the proposed development and adjacent neighborhood. Parking will be provided in Building 3 and a landscaped surface lot located in between Buildings 2 and 3 created by the demolition of a former service garage.
 - Parcel 2 – 2502-2520 Lillie Street and 2519 -2535 Winter Street will have two family stacked and side by side duplexes with private yards and parking off of an existing alley (R2 zoning).
 - Parcel 3 – 1501-1511 E. Pontiac Street will be improved with a new building that will include a two story, four unit walkup flanked by two - two story duplex units.
 - Parcel 4 - 1502-1525 E. Pontiac Street will be improved with a new, multi-unit building that will include a two story, four unit walkup flanked by two - two story duplex units. .
 - Parcel 5 - 2528-2602 Winter Street will have two family stacked and side by side duplexes with private yards and parking off of an existing alley (R2 zoning).
 - Parcel 6 – 1714 E. Pontiac Street will be improved with a new building that will include a two story, four unit walkup flanked by two - two story duplex units. Parking will be provided off an existing side alley with appropriate landscaping to screen it from E. Pontiac Street.
- Zoning Relief** – Parcels 2 and 5 will conform to the existing R2 zoning with no zoning relief required. Parcels 1, 3, 4, and 6 will be zoned as CM5C – Commercial Corridor that allows multifamily residential development. However, since ground floor commercial use is not proposed and existing residential uses along this section of E. Pontiac Street are set back varying distances from the street, the proponent requests a waiver from the CM5C maximum front yard setback of 10 feet to be increased to 20 feet. The front yard setbacks for the new development will vary to conform to the front yard setback of existing non-conforming dwellings.
A waiver from the maximum side yard will also be requested for Parcel 3. The building proposed for this site will result in side yards of 22 feet exceeding the maximum allowed of 10 feet.
- Site Coverage** – R2 Two Family District
Maximum Lot Coverage allowed:
Parcel 2 – 2502-2520 Lillie Street and 2519 -2535 Winter Street
Site Area 43,550 SF
Building Foot Print 9,088 SF
Total Calculated Lot Occupancy: 20.8%

Parcel 6 – 2528-2602 Winter Street
Site Area 19,377 SF
Building Foot Print 4,534 SF
Total Calculated Lot Occupancy: 23.4%
- Description of Proposed Landscaping for Parking Areas**
Landscaping shown on plan is illustrative of general intent only. A detailed Landscape Plan will be submitted as part of the Site Plan Review.
Plantings providing all-year screening will be employed at the perimeter of the development sites where dwelling units or parking meet adjacent residential properties.
