Said amount shall be added to the City of Fort Wayne EBE Bond Guarantee Fund and Contractor agrees to accept the reduced amount as full payment under the terms of his/her Contract.
- F. **Waiver Approved** – In the event the Board of Public Works determines that a good faith effort to comply with these EBE participation requirements has been made, the Contract Price shall not be reduced, and the balance owing to the Contractor shall be paid in full.

Interoffice Memo

Date: **April 12, 2012**
To: Common Council Members
From: Bill Maxwell, Senior Program Manager, City Utilities Engineering
RE: **St. Joseph/Beckett Run Equalization Facility**
Res. #0006-2012, W.O. #75589

The contractor shall furnish all labor, insurance, equipment, materials and power for the completion of the project: St. Joseph/Beckett Run Equalization Facility as follows: Construction of a pump-in/gravity-out sanitary sewage equalization facility consisting of a diversion structure, lift station, 30" diameter forcemain, two 3.4 Million Gallon concrete tanks with mixing systems, electrical building, two mixing buildings, and a permanent standby generator.

Implications of not being approved: This project is a step closer to completing our Northern Area Master Plan which increases the level of service to existing sewer utility customers while providing capacity for growth. If this facility was not built, the St. Joseph Interceptor would continue to surcharge during small rain events increasing probabilities of basement backups and styming growth in the Northern part of the City. This facility will work in conjunction with previously approved projects including the Upper Ely Interceptor Phases I and II, Beckett's Run Interceptor Relief Sewer, and the Swift Interceptor Relief Sewer.

If Prior Approval is being Requested, Justify: N/A

This project was advertised to contractors on February 17, 2012, February 24, 2012 in the Journal Gazette and the News Sentinel and February 22, 2012 in Frost Illustrated, Inc.

The contract for Resolution # 0006-2012 **awarded to Robert E. Crosby Inc. for \$9,973,861.00** was the lowest most responsive bidder of 10 bidders and 22.5% below the Engineer's estimate of \$12,865,000.00. The second lowest bidder was \$352,739.00 above Robert E. Crosby Inc.'s bid.

The cost of said project funded by: 2011 Sewer Revenue Bond.
