RE: Lexington Oakdale Storm Sewer Extension
Res. #2394-2010, W.O. #75602

Handwritten signature and date:
7-12-12

Council District # 5

The contractor shall furnish all labor, insurance, equipment, materials and power for the completion of the project: "Lexington & Oakdale Storm Sewer Extension" as follows: This project will consist of storm sewer extensions that will be installed along Old Mill Road, Sheridan Court, Arlington Avenue, Lexington Avenue, South Wayne Avenue, French Avenue and Hoagland Avenue. This will consist of approximately 3,865 lf of 12", 15", 18", 24", 30", and 36" RCP. The storm extensions will pick up inlets and catch basins that are currently connected to the combined system. Water main replacement will also be a part of this project along Sheridan Court and Kimmel Drive. This will be 1,425 of 8" HDPE and will be installed by horizontal directional drill (HDD).

Implications of not being approved: This separation project is to meet the Consent Decree requirements of CSO Control Measure (CM) 6 for CSO Outfall 18. Partial sewer separation will reduce the amount of stormwater entering the combined sewer system by picking up existing inlets and catch basins from the combined system. By removing stormwater runoff from the existing combined sewer in the neighborhood, this will result in fewer combined sewer overflows. The CSO CM 6 requires that CSSCIP (combined sewer separation capital improvements projects) work be initiated in 2012 and all construction completed by 2018.

If Prior Approval is being Requested, Justify N/A

This project was advertised to contractors on May 25, 2012, June 1, 2012 in the Journal Gazette and the News Sentinel and May 30, 2012 in Front Illustrated, Inc.

The contract for Resolution # 2394-2010 awarded to All Star Construction for \$985,850.00 was the lowest most responsive bidder of 2 bidders and 5% below the Engineer's estimate of \$1,040,725.00. The second lowest bidder was \$137,955.50 above All Star Construction's bid.

The cost of said project funded by: SRF.
