In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

How does the property for which you are requesting designation meet the above definition of an ERA?

The land at this location is currently undeveloped. Women's Health Advantage currently leases office space in southwest Fort Wayne. That location is too small for its future needs. The new location will allow Women's Health Advantage to build a new 31,600 square foot facility suitable for future growth.

**WHA Building LLC dba Women's Health Advantage
Application for Designation as an Economic
Revitalization Area- City of Fort Wayne**

Women's Health Advantage is one of the largest providers of women's health care in the Midwest with board certified physician specialists and mid-level providers. It traces its roots back to 1970 when it was known as Fort Wayne OB Gyn. It merged with OB Gyn Consultants in 2000 and was renamed to Women's Health Advantage in 2006. It is still locally owned by physicians, who all live in and around the Fort Wayne area. The company's headquarters are located at 2518 E. Dupont Road, in Fort Wayne.

The proposed project includes a new 31,600 square foot medical office building, to be built on vacant ground, on the Lutheran Hospital campus. The company currently leases a building on W. Jefferson Blvd. which is too small to meet its current and future needs. The new building will allow the company to expand. The project will result in the retention of 62 jobs with annual salaries of \$4,206,048 and 12 new jobs with estimated annual salaries of \$813,280, including two new physicians.

We believe that this project is worthy of the tax abatements for several reasons. First, Women's Health Advantage is moving into a large facility because it is expanding its operations and hiring new employees. They will own the building instead of leasing. The owners will maintain the building and surrounding landscaping. Second, adding the building will provide an increase to the tax base. Currently, this land is not improved and is on the tax rolls as land-only. Third, the jobs that are being created are high-paying jobs.
