Subject: Yearly Maintenance for Spillman Mobile software

Members of City Council:

This ordinance is to authorize the purchase of yearly maintenance for Computer Aided Police Dispatch Mobile software from Spillman Technologies, Inc for the operation of the City's 911 dispatching system. This year's maintenance cost is \$132,347.

This software maintenance is specifically for the software used in squad cars.

This payment is part of a group of four payments by the City and County to Spillman Technologies, Inc each year. Allen County and the City of Fort Wayne each paid \$118,045 for the maintenance of the main Spillman system. Allen County also pays approximately \$57,000 the maintenance of their mobile software. Fort Wayne pays more for mobile maintenance because we have more squad cars and fire trucks on the Spillman system.

In exchange for maintenance fees, the software vendors provide support for problems with the software and periodically provide new versions of the software.

Our decision to pay maintenance rests on four tests:

- Do we have a continuing internal commitment to use this software?
- Is the software vendor continuing to improve the product?
- Is the vendor useful in solving problems with the software?
- If the software fails, what's the worst case scenario?

The City and County both have substantial investments in the use of Spillman software. Spillman provides regular updates to the software and supports our day to day operation of the software.

This software is critical to daily work of police, fire, and medical first responders. Based on these factors, I strongly recommend continued funding of Spillman maintenance.

If you have any questions, please call me at 427-1461.
