We will offer complete pregnancy care to women and their families and allow them the option of safe out of hospital birth attended by licensed professionals: Certified Nurse-Midwives and Obstetricians/Gynecologists.

In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

How does the property for which you are requesting designation meet the above definition of an ERA?

This area is rather unique based on its proximity to the hospitals and its size. It has been vacant long-term, likely because it is too small for most developers to find it attractive, yet the area around it is effectively all medically related. At the same time, there is an abundance of property available on both hospital campuses. The unique nature of our business: out of hospital birth, fits perfectly for this property and is probably the only opportunity for its development. Further, this is a very unique service, not offered in Allen County, and many families leave our market in search of these services.
