# **Economic Development Target Areas**

*Proposed Expansion  
July 2017*

## **Economic Development Target Areas 1991-2016**

In 1985, an "Economic Development Target Area" designation was mandatory in order to be able to issue economic development revenue bonds, as well as provide tax abatement to retail operations.

Under current state legislation, the only difference between designation of an economic development target area and as an economic revitalization area rests in the ability to receive tax abatement for retail operations. Now, as in the past, it seems logical to designate economic development target areas in those retail/commercial areas of the city in need most of re-capitalization.

### **Economic Development Target Areas Defined**

Economic Development Target Areas (EDTAs) are defined by the Indiana Code (I.C. 6-1.1-12.1-7) as areas that:

- a. Have become undesirable or impossible for normal development occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors that have impaired values or prevent a normal development of property or use of property, or
- b. Have been designated as a registered historic district under the National Historic Preservation Act of 1966 or under the jurisdiction of a preservation commission organized under I.C. 36-7-11, I.C. 36-7-11.1, I.C. 36-7-11.2, I.C. 36-7-11.3, or I.C. 14-3.3.2, or
- c. Encompass buildings, structures, sites, or other facilities that are listed on the National Register of Historic Places, the Indiana Historic Sites and Historic Structures Register established under I.C. 14-3-3.3, or are determined to be eligible for listing on the Indiana Register by the Indiana historic preservation officer.

*Indiana law limits the amount of land that can be designated to a total of no more than 15% of the total geographic area of the city. Current economic development target area boundaries comprise 6.66 square miles or 6% of the total geographic area of the City of Fort Wayne (110.83 square miles). In theory, our economic development target area boundaries could expand 8.9% or 9.97 square miles.*

The size of the proposed EDTAs is .00655 square miles. If approved, the total economic development target area boundaries would comprise 6.66 square miles or 6% of the total geographic area of the City of Fort Wayne.

## Economic Trends Analysis

Community Development Division staff worked with the division's special projects staff to map and overlay areas of the city with certain characteristics. Division staff concentrated its efforts in identifying areas of the city where retail operations might be enhanced through the economic development target area inducement. Staff reviewed the following maps and data:

- Commercially and industrially zoned property within the city
- Current EDTA maps
- Median income and poverty rates
- Urban Enterprise Zone boundaries
- Central Business District boundaries
- Economic Improvement District boundaries
- Historic preservation districts and sites
- Land use maps showing commercial and industrial uses

## Conclusions

Community Development Division staff believes that an existing economic development target area should be expanded. The existing economic development target area would remain with the expansion proposed below by the Fort Wayne Common Council upon favorable recommendation by the Fort Wayne Economic Development Commission for the following area:

*Expand the existing economic development target area:*
