DESCRIPTION OF PROJECT / NEED

Identify need for project &	This contract is for the purchase and planting of trees for the City Street Tree/ park
describe project; attach	tree planting program. Total purchases/planting services for trees for 2017 have
supporting documents as	surpassed \$100,000, thus requiring Council approval. A total of \$284,665.00 in
	tree purchases and planting services are being requested in this approval. With the
necessary.	approval of this contract we will be able to plant 1454 trees on our streets and in
	our parks. Trees offer significant financial benefits through reduced energy cost
	and increased property values. Some of the environmental benefits include
	decreased energy consumption, storm water management, and decreased ground
	and air pollutants. Trees tie neighborhoods to community and increase
	connections between neighbors. If we discontinue the planting of trees in our city,
	the overall aesthetic beauty and quality of our city will diminish.
