PROJECT SUMMARY

- The plat of Centaur Acres was recorded in 1958.
- According to property records, the house was built in the late 1950s.

The approximately 2.2 acre property is proposed to be rezoned to C1/Professional Office and Personal Services for a single commercial building. The current zoning of the site is AR/Low Intensity Residential, and there have been no recent rezoning petitions on the subject property. The real estate is part of a plat of Centaur Acres (Lot 1), and has been used residentially for decades. The plat of Centaur Acres was recorded in 1958, prior to most of the development of Aboite Township. In addition to the rezoning and primary development plan, a plat vacation is proposed to remove the platted lots and covenants associated with the plat.

The immediate area is a mixture of retail, office, and residential development of varying densities. A number of underused properties along the State Road 14/Illinois Road corridor have redeveloped with the infrastructure improvements done to the roadway in recent years. Now, over 26,000 vehicles per day traverse State Road 14/Illinois Road along this site. Recent developments in proximity to the site and along this corridor include: Prairie Landing commercial outlots (zoned C2 in 2019), Parkview Inverness (zoned C1 in 2019), Shigs in Pit/Indiana Physical Therapy (zoned C2 in 2019), and Quail Commons Office (zoned C1 in 2019). A C1 zoning request for Schoolhouse Lofts was recently heard by the Plan Commission and approved by Council. Large platted and metes and bounds residential parcels along State Road 14 have become increasingly undesirable for residential use as development grows and traffic increases.

The proposal could be supported by the following goals and policies of the Comprehensive Plan:

- LU3.** Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
- LU5.** Encourage sustainable growth and quality development, revitalization and redevelopment by increasing and enhancing connectivity;
- LU5.C** Encourage development proposals that provide neighborhood commercial, civic, institutional and other similar uses, designed to allow adequate access for pedestrians and bicycles, in close proximity to housing.
- LU6.** Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.
- LU6.C** Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.
- LU6.D** Support carefully planned, coordinated, compatible mixed-use development.
- LU8.** Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.

Staff recommended a written commitment for the real estate. The Written Commitment, if properly crafted, can allow professional office and personal services uses while restricting those C1 uses deemed to be incompatible, or too intensive for the site from a size or access standpoint. The Written Commitment would run with property and not just the property owner.

The project is a single 10,500 square foot commercial building. Parking surrounds the building and is in excess of the minimum parking standards. One vehicular access point is proposed to Goldspur Drive east, and is located near the current residential driveway location. A detention basin is proposed on the west side of the site near Quail Commons. The landscape plan around the perimeter of the site and the landscaping islands in the parking lot meet the intent of the Zoning Ordinance. A lighting plan has not been submitted, but the Zoning Ordinance has standards requiring full cut-off fixtures. Signage will meet the standards of the Zoning Ordinance. The site will install pedestrian facilities along all public streets that do not have them today, and

also provide an internal connection from the building to the sidewalk/trail network. No waiver of development standard is requested with the primary development plan.

PUBLIC HEARING SUMMARY:

Presenter: Tom Trent presented the request to Plan Commission as outlined above.

Public Comments in Favor:

Matt Branning, 8511 Illinois Road – Supports the rezoning. Many changes along the corridor since the road was widened in 2010. Feels like decel lanes would also help.

Pat Browne, 2015 Edenton Drive – The property is no longer suitable for residential uses, there is no barrier from the noise and traffic on Illinois Road.

Public Comments in Opposition or with Concern:

Robert Aplin, representing Centaur Acres – Main themes of opposition: lighting, runoff, infrastructure, and safety of ingress/egress on Goldspur. They do not believe the road can handle the traffic and would rather see the entrance on SR 14. Requesting a traffic study. They will discuss the Written Commitment with Tom Trent, but at the time of the hearing they are generally opposed.

Steve Mauldin, President of Falls of Beaver Creek – Has similar concerns as he does to the Schoolhouse Lofts project. He has spoken to other neighborhood presidents along SR 14 and none are in favor. There is vacant land in town that can be used. Do not add development to SR 14; they moved to the southwest to avoid the hustle and bustle of Fort Wayne.

Kelly Borne, 9117 Goldspur – There is only one entrance to the subdivision, concerns about traffic backing up on SR 14 because of Shigs n Pit. Numerous other vacant properties on SR 14 they could develop. The owner did not try to sell the property residentially.

John Nicholson, 8707 Goldspur Drive – How tall is building? Believes people will overshoot the office entrance and drive through their neighborhood.

Paul Lisec, 1424 Goldspur Drive – Believes she could easily sell the house for residential use.

Closing Comments:

The building will be a maximum of 40 feet, which is the same height restriction for single family residential. Office uses should not add significantly to the traffic on SR 14.

FORT WAYNE PLAN COMMISSION • FINDINGS OF FACT

Rezoning Petition REZ-2021-0068

APPLICANT: Barbara A. Browne
REQUEST: To rezone property from AR/Low Intensity Residential to C1/Professional Office and Personal Services; to approve a primary development plan for new commercial structure; and to vacate the real estate platted as Lot 1 of Centaur Acres, including vacation of building lines and associated covenants for the real estate.
LOCATION: The site is located on the south side of West State Road 14 (Illinois Road) and on the west side of East Goldspur Drive. The address of the subject property is 1114 East Goldspur Drive (Section 11 of Aboite Township).
LAND AREA: Approximately 2.2 acres
PRESENT ZONING: AR/Low Intensity Residential
PROPOSED ZONING: C1/Professional Office and Personal Services

The Plan Commission recommends that Rezoning Petition REZ-2021-0068 be returned to Council, with a written commitment, with a “Do Pass” recommendation after considering the following:

1. Approval of the rezoning request will be in substantial compliance with the City of Fort Wayne Comprehensive Plan, and should not establish an undesirable precedent in the area. The C1/Professional Office and Personal Services zoning will provide the opportunity to redevelop the aging structure on the site while providing additional office opportunities in the Southwest quadrant of the City. This proposal is located within the Conceptual Development Map within the Comprehensive Plan.
LU3. Use land resources efficiently by encouraging new development, revitalization and redevelopment in areas already served by infrastructure;
LU6. Encourage carefully planned sustainable growth and coordinated development by encouraging mixed land uses.
LU6.C Encourage the conversion of vacant or underutilized properties into compatible mixed-use development areas.
LU6.D Support carefully planned, coordinated, compatible mixed-use development.
LU8. Use land resources efficiently by encouraging compact development alternatives in infill areas where utilities and other infrastructure currently exist.
2. Approval of the request will not have an adverse impact on the current conditions in the area, or the character of current structures and uses in the area. Site plan and architectural review from the Plan Commission and staff will ensure a compatible development that complements the area.
3. Approval is consistent with the preservation of property values in the area. This proposal will allow reinvestment into the property. The site will be upgraded with modern infrastructure including reconstruction of a portion of Goldspur and new sidewalks. Landscape materials to screen and buffer is also required throughout the site.
4. Approval is consistent with responsible development and growth principles based on existing uses and infrastructure in the area. Review by City engineering departments will ensure the required infrastructure is provided to the site.

These findings approved by the Fort Wayne Plan Commission on January 24, 2022.
