PART I
SERVICES

A. GENERAL

ENGINEER shall provide the CITY professional engineering services in the design phase of the PROJECT. These services will include serving as CITY'S professional representative for the PROJECT; providing professional engineering consultation and advice, and furnishing civil, environmental and other customary design services incidental thereto.

B. PROJECT DESCRIPTION

The bridge that carries traffic on Parnell Avenue over the St. Joseph River, is a two-span open spandrel arch bridge that was constructed in 1927. The concrete reinforced concrete arch bridge was widened to 4 lanes in 1970. Since then, the bridge deck surface and arches have deteriorated at a normal rate and are showing signs of spalling, cracking, spider cracking and delamination throughout the structure. As part of the bridge rehabilitation portion of the project, the bridge deck surface will be replaced to include a waterproofing membrane, and the concrete structure will be rehabilitated to address the spalling and cracking on the underside of the arches. In addition to the rehabilitation, a widened sidewalk will be investigated, and if practical, incorporated into the design. Additionally, the approach slabs, expansion joints will be replaced and additional scour protection at the piers will be added.

C. SCOPE OF WORK

The duty of the ENGINEER is to design approved improvements; develop construction drawings, specifications and special provisions. The final construction documents shall be stamped by a Registered Professional Engineer, licensed in the state of Indiana and employed by the ENGINEER. The ENGINEER shall develop and provide the following services:

Task 1 - Project Schedule and Review Meetings

- 1.1 Prepare project design schedule.
- 1.2 Keep the minutes of the Review Meetings and distribute these minutes within 7 days of the Review Meeting.
- 1.3 Provide monthly progress reports to the City identifying the current budget, recently completed tasks and tasks anticipated to be completed the following month.

Task 2 -- Data Collection and Field Survey

- 2.1 Research CITY documents for existing mapping, utility information, as-built drawings, information management system and other pertinent data. (City Provides)
- 2.2 Identify major utilities and their apparent location from Utility maps. (City Provides)
- 2.3 Check conflicts with any other proposed projects in the immediate area. (City Provides)

- 2.4 Contact all utility companies and have the underground utilities field marked along the selected route. (Coordinate with IUPPS 1-800-382-5544)
- 2.5 Complete a field survey.
- 2.6 It is not anticipated that any tree survey shall be required to identify the size, health and impact of potential improvements to adjacent vegetation.
- 2.7 Obtain property lines and property owner information to ensure avoiding the need for right of way acquisition.

Task 3 – Historic Bridge Alternatives Analysis

- 3.1 Prepare historic bridge alternatives analysis report. This report will include the necessary alternatives required to be investigated in accordance with Section 106. Preliminary cost comparisons, preliminary typical sections and a preliminary cost construction cost estimate will be prepared as part of the report.

Task 4 - Preliminary Design

- 4.1 Prepare existing site drawings. (See Transportation Engineering Services, Drafting Standards)
- 4.2 Provide a utility location plan indicating apparent conflict areas.
- 4.3 Address apparent utility conflicts.
- 4.4 Compile additional data as needed.
- 4.5 Advise CITY of need for additional data relative to exploratory digs, pavement cores, soil borings and geotechnical evaluation issues all in accordance with good engineering practices. Provide a plan indicating recommended exploratory digs, pavement corings, soil borings and any areas of special interest prior to performing work. Fee for additional data work proposed shall be approved prior to commencing with the work.
- 4.6 Determine the final location of the proposed improvements, any permanent or temporary right-of-way or easement requirements.
- 4.7 Select construction materials and products to be used on this project.
- 4.8 Prepare Preliminary Design Drawings. Incorporate all design improvements.
- 4.9 Prepare outline of specifications or reference standard specifications to supplement CITY standards.
- 4.10 Prepare estimate of quantities and estimate of construction costs.
- 4.11 Attend Preliminary Design Review Meeting.
- 4.12 Identify and coordinate the preliminary proposed maintenance of traffic scheme for both vehicles and pedestrians.

Task 5 - Final Design

- 5.1 Prepare draft specifications for the improvements, including special provisions and necessary details to supplement CITY standards.
- 5.2 Prepare final design drawings. Incorporate comments received during the review meetings and routings.
- 5.3 Attend up to two public meetings as needed to review and discuss the project. (Option – separate fee if done)
- 5.4 Update summary of project quantities.
- 5.5 Upon approval of Final Design drawings and project specifications, prepare and submit one (1) set of stamped mylars, itemized bid, special provisions and itemized engineers estimate and one (1) electronic version of the project drawings and documents (WORD Version 9.0).
- 5.6 Prepare and submit final maintenance of traffic plans for approval by the City.

Task 6 – Environmental Permitting

- 6.1 Perform a wetland delineation to assess the presence of wetlands as part of the 401 IDEM & 404 Corp permits.
- 6.2 Prepare and send early coordination letters and prepare a red flag survey.
- 6.3 Prepare and submit applications for 401 IDEM & 404 Corp permits. It is assumed that a regional general permit will suffice for this work. If it is identified that an individual permit is required, a supplemental will be required as part of this scope.
- 6.4 Preparation of Section 106 documentation. An archaeology investigation is not anticipated to be necessary or is included in this scope. If an archaeology investigation is required, a supplemental to this scope will be required.
- 6.5 As the park is anticipated to be temporarily impacted by the construction activities of this project, Section 4(f) will qualify and will be coordinated. A temporary occupancy exemption will be applied for as part of this scope.
- 6.6 A hydraulic analysis will be provided to be used in the scour analysis of the bridge.
- 6.7 Prepare and submit the application for the IDNR Construction in a Floodway permit. It is assumed that a non-modeling permit will be required in order to place additional scour protection at the pier. VS assumes that the scour protection will not impact the cross-section of the river.
- 6.8 Prepare and submit the application for a Navigable Waters Permit. Signage will be identified on the plans to be placed on the river during construction to direct waterway traffic as necessary.

- 6.9 Coordinate with the Corp for Section 408. The scope of this work is not anticipated to impact the levy in any way. If the levy is impacted by this work, this permit will expand in scope significantly and a supplemental will be required to this scope.

Task 7 – Utility Coordination

- 7.1 All existing utilities will be coordinated with and any utilities that are located within the project limits will be shown on the plans. Utility work plans will be coordinated and prepared with any utility that is impacted by this work. The work plans will be submitted to the City. The bridge plans shall include utility contact information, locations and utility type on the plans.

Task 8 – Public Engagement

- 8.1 As the project develops, Engineer will provide in-person and virtual meetings to inform stakeholders of any changing conditions on the project.
- 8.2 Public meetings and hearings will be held as needed and also provide a virtual attendance option to increase the likelihood of participation.
- 8.3 Online meeting materials, project videos, online questionnaires, and other touchpoints will be provided to support traditional outreach methods.
- 8.4 Kitchen table meetings will be provided as needed to encourage discussion and open dialogue.
- 8.5 Coordinate Section 106 consulting party meetings, resource agency meetings and citizen advisory committee (CAC) meetings to enhance feedback for the project team.

Task 9 - Bidding

- 9.1 Attend Pre-bid Meeting.
- 9.2 Respond to questions from bidders and manufacturer representatives during bidding as requested by CITY. Responses requiring additional information or clarification not found within the bid documents shall ONLY be addressed by addendum.
- 9.3 Prepare addenda, as needed to interpret, clarify or expand bid documents. CITY to issue addenda.
- 9.4 Review tabulated bids and make recommendation regarding construction contract award to the CITY.

Task 10 – Construction Phase Services

- 10.1 Attend preconstruction meeting, review RFIs and shop drawings.

D. SCHEDULE

The project will be completed per attached design schedule. This schedule is based on receiving a Notice to Proceed by: March 1, 2023 and receiving prompt review and approvals from CITY.

PART II

CITY'S RESPONSIBILITIES

City shall, at its expense, do the following in a timely manner so as not to delay the SERVICES:

A. INFORMATION REPORTS/CITY UTILITY MAPS/AERIAL MAPS/CONTOUR MAPS

Make available to ENGINEER reports, studies, regulatory decisions and similar information relating to the SERVICES that ENGINEER may rely upon without independent verification unless specifically identified as requiring such verification.

Provide ENGINEER with a maximum of two (2) copies each of existing CITY utility maps, aerial maps and contour maps that are readily available in the City-County Building.

B. REPRESENTATIVE

Designate a representative for the project who shall have the authority to transmit instructions, receive information, interpret and define CITY'S requirements and make decisions with respect to the SERVICES. The CITY representative for this AGREEMENT will be David Ross, City Engineer.

C. DECISIONS

Provide all criteria and full information as to CITY'S requirements for the SERVICES and make timely decisions on matters relating to the SERVICES.

PART III
COMPENSATION

A. COMPENSATION

Compensation for services performed in accordance with Part I – SERVICES of this Agreement will be based on hours actually spent and expenses actually incurred with a not-to-exceed engineering fee of \$176,400 as summarized in attached Attachment I. Please note that there is a \$10,000 work allowance included in the engineering fee for this project.

ENGINEER's costs will be based on the hours incurred to complete the project times the hourly rates of the various personnel, per Attachment 2 – Hourly Rate Schedule. All Reimbursable costs incurred for the project will be invoiced at actual cost plus 10% percent to cover administrative costs.

Payment for outside consulting and/or professional services such as Geotechnical, Registered Land Surveyor for easement preparation, or Legal Services performed by a Subconsultant at actual cost to ENGINEER plus 10% percent for administrative costs. The ENGINEER will obtain written CITY approval before authorizing these services.

B. BILLING AND PAYMENT

1. Timing/Format

- a. ENGINEER shall invoice CITY monthly for SERVICES completed at the time of billing. Such invoices shall be prepared in a form and supported by documentation as CITY may reasonably require.
- b. CITY shall pay ENGINEER within 30 days of receipt of approved invoice.

2. Billing Records

ENGINEER shall maintain accounting records of its costs in accordance with generally accepted accounting practices. Access to such records will be provided during normal business hours with reasonable notice during the term of this Agreement and for 3 years after completion.

PART IV
STANDARD TERMS AND CONDITIONS

1. **STANDARD OF CARE.** Services shall be performed in accordance with the standard of professional practice ordinarily exercised by the applicable profession at the time and within the locality where the services are performed. No warranty or guarantee, express or implied, are provided, including warranties or guarantees contained in any uniform commercial code.

2. **CHANGE OF SCOPE.** The scope of Services set forth in this Agreement is based on facts known at the time of execution of this Agreement, including, if applicable, information supplied by ENGINEER and CITY. ENGINEER will promptly notify CITY of any perceived changes of scope in writing and the parties shall negotiate modifications to this Agreement.

3. **SAFETY.** ENGINEER shall establish and maintain programs and procedures for the safety of its employees. ENGINEER specifically disclaims any authority or responsibility for general job site safety and safety of persons other than ENGINEER employees.

4. **DELAYS.** If events beyond the control of ENGINEER, including, but not limited to, fire, flood, explosion, riot, strike, war, process shutdown, act of God or the public enemy, and act or regulation of any government agency, result in delay to any schedule established in this Agreement, such schedule shall be extended for a period equal to the delay. In the event such delay exceeds 90 days, ENGINEER will be entitled to an equitable adjustment in compensation.

5. **TERMINATION/SUSPENSION.** Either party may terminate this Agreement upon 30 days written notice to the other party in the event of substantial failure by the other party to perform in accordance with its obligations under this Agreement through no fault of the terminating party. CITY shall pay ENGINEER for all Services, including profit relating thereto, rendered prior to termination, plus any expenses of termination.

ENGINEER or CITY, for purposes of convenience, may at any time by written notice terminate the services under this Agreement. In the event of such termination, ENGINEER shall be paid for all authorized services rendered prior to termination including reasonable profit and expenses relating thereto.

6. **REUSE OF PROJECT DELIVERABLES.** Reuse of any documents or other deliverables, including electronic media, pertaining to the Project by CITY for any purpose other than that for which such documents or deliverables were originally prepared, or alteration of such documents or deliverables without written verification or adaptation by ENGINEER for the specific purpose intended, shall be at CITY's sole risk.

7. **OPINIONS OF CONSTRUCTION COST.** Any opinion of construction costs prepared by ENGINEER is supplied for the general guidance of the CITY only. Since ENGINEER has no control over competitive bidding or market conditions, ENGINEER cannot guarantee the accuracy of such opinions as compared to contract bids or actual costs to CITY.

8. **RELATIONSHIP WITH CONTRACTORS.** ENGINEER shall serve as CITY's professional representative for the Services, and may make recommendations to CITY concerning actions relating to CITY's contractors, but ENGINEER specifically disclaims any authority to direct or supervise the means, methods, techniques, sequences or procedures of construction selected by CITY's contractors.

9. **MODIFICATION.** This Agreement, upon execution by both parties hereto, can be modified only by a written instrument signed by both parties.

10. **PROPRIETARY INFORMATION.** Information relating to the Project, unless in the public domain, shall be kept confidential by ENGINEER and shall not be made available to third parties without written consent of CITY.

11. **INSURANCE.** ENGINEER will maintain insurance coverage for Professional, Comprehensive General, Automobile, Worker's Compensation and Employer's Liability in amounts in accordance with legal, and ENGINEER business, requirements. Certificates evidencing such coverage will be provided to CITY upon request. For projects involving construction, CITY agrees to require its construction contractor, if any, to include ENGINEER as an additional insured on its policies relating to the Project. ENGINEER coverages referenced above shall, in such case, be excess over contractor's primary coverage.

12. **INDEMNITIES.** To the fullest extent permitted by law, ENGINEER shall indemnify and save harmless the City from and against loss, liability, and damages sustained by CITY, its agents, employees, and representatives by reason of injury or death to persons or damage to tangible property to the extent caused directly by the negligent errors or omissions of ENGINEER, its agents or employees.

13. **LIMITATIONS OF LIABILITY.** No employee or agent of ENGINEER shall have individual liability to CITY. CITY agrees that, to the fullest extent permitted by law, ENGINEER's total liability to CITY for any and all injuries, claims, losses, expenses or damages whatsoever arising out of or in any way related to the Project or this Agreement from any causes including, but not limited to, ENGINEER's negligence, error, omissions, strict liability, or breach of contract shall not exceed the total compensation received by ENGINEER under this Agreement except for personal injury or property damage which shall be limited to the extent of ENGINEER insurance coverage (minimum \$250,000.00). If CITY desires a limit of liability greater than that provided above, CITY and ENGINEER shall include in this Agreement the amount of such limit and the additional compensation to be paid to ENGINEER for assumption of such additional risk.

14. **ASSIGNMENT.** The rights and obligations of this Agreement cannot be assigned by either party without written permission of the other party. This Agreement shall be binding upon and insure to the benefit of any permitted assigns.

15. **ACCESS.** CITY shall provide ENGINEER safe access to any premises necessary for ENGINEER to provide the Services.

16. **PREVAILING PARTY LITIGATION COSTS.** In the event any actions are brought to enforce this Agreement, the prevailing party shall be entitled to collect its litigation costs from the other party.

17. **NO WAIVER.** No waiver by either party of any default by the other party in the performance of any particular section of this Agreement shall invalidate another section of this Agreement or operate as a waiver of any future default, whether like or different in character.

18. **SEVERABILITY.** The various term, provisions and covenants herein contained shall be deemed to be separate and severable, and the invalidity or unenforceability of any of them shall not affect or impair the validity or enforceability of the remainder.

19. **AUTHORITY.** The persons signing this Agreement warrant that they have the authority to sign as, or on behalf of, the part for whom they are signing.

20. **STATUTE OF LIMITATION.** To the fullest extent permitted by law, parties agree that, except for claims for indemnification, the time period for bringing claims regarding ENGINEER's performance under this Agreement shall expire one year after Project Completion.
