In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

 MEI is located within the corporate limits of the City of FW and the lack of available land & building prevents a normal development of use of property. The limitation that we have on real estate options may lead to a decline in employment and tax revenues if we can not invest in these new manufacturing and information technology equipment improvements to increase production and efficiency within our current spaces.
