OPINION 15

OFFICIAL OPINION NO. 15

June 2, 1955

Mr. George F. Hinkle
Commissioner of Labor
225 State House
Indianapolis 4, Indiana

Dear Mr. Hinkle:

I have a request from your Division for an Official Opinion reading as follows:

"The 'off duty' time of a fireman in the State of Indiana has never been completely ascertained.

"May we have your official opinion as to the proper interpretation of the word 'Emergency' as used in the Acts of 1945 dealing with the 'Hours of duty for firemen and Emergencies' as amended in 1951 and 1953."

Your request deals with an interpretation of the Acts of 1945, Ch. 319, Sec. 1, as amended, as found in Burns' Indiana Statutes (1950 Repl., 1953 Supp.), Section 48-6124, reading as follows:

"No member of the fire department or fire force in any city in the state of Indiana having a regularly organized and paid fire department or fire force, shall be required to work more than an average of seventy-two (72) hours per week, except in cases of emergency: Provided, however, That in cases of emergency, the chief of the fire department or fire force, or the assistant chief or other officer in charge of the fire force, shall have the power to assign any or all members of said fire department or fire force to continuous duty during such emergencies."

In this particular case, the word "emergency" is clearly used in connection with the duty of a municipality, acting through the fire department, to protect life and property from injury, destruction or risk thereof due to fire conflagration and other perils involving the activities of a municipal fire department. The statute apparently leaves the question as to what is or what is not such an "emergency" so as to require placing mem-

bers of the fire department on duty for more than an average of seventy-two (72) hours a week up to the fire chief, the assistant chief, or another officer in charge of the fire force and it is my opinion that, since this is directed to an emergency situation, the judgment of such officer as to what is or is not an "emergency" would be final.

If the judgment of the authorized official is being abused, such official would be subject to removal by the appointing authority.

Dr. C. A. Frech, Secretary
Ind. State Board of Dental Examiners
Gary National Bank Building
Gary, Indiana

Dear Doctor Frech:

Your letter has been received requesting an Official Opinion on the following question:

"The legality of filing claims for monies advanced to patients or investigators for the purpose of obtaining evidence against suspected violators of our dental practice act."

Supplementing your request you have herewith forwarded copies of certain correspondence between you and the State Board of Accounts regarding the legality of such claims. From such correspondence it is not clear whether these types of claims are questioned on the basis of lack of authority or upon legality of such investigation procedure.

The statute governing the licensing and regulation of the practice of dentistry in this state is Acts of 1913, Ch. 138, as amended, as found in Burns' Indiana Statutes (1951 Repl.), Section 63-501 *et seq.* Under the provisions of said statute, the practice of dentistry is defined; authority is given for the issuance and revocation of licenses; the administration and enforcement of the act is placed in said board; and injunction

EBE Retainage Requirements – If the Contractor is in compliance with the provisions of the construction Contract the Owner will make payments for such work performed and completed. Pursuant to Executive Order 90-01 (amended 5-8-06); the Owner will retain five percent (5%) of the Contract Price to ensure compliance with the EBE participation requirements. Upon final inspection and acceptance of the Work, and determination by the Fort Wayne Board of Public Works that the Contractor has made a good faith effort to subcontract ten percent (10%) of the Contract Price to emerging business enterprises, the Contractor will be paid in full.

In the event there is a determination that good faith compliance with these EBE participation requirements has not occurred, appropriate reduction in the final payment pursuant to paragraph 9.03.E will be made.

If the Contract Price is in excess of \$200,000, the contract will be subject to the standard Board of Public Works escrow agreement. However, payments to the Contractor are not to exceed 95% of the total Contract Price until the Owner has verified that the Contractor has made good faith efforts to attain the 10% EBE goal stipulated in here within. Payment of the final 5% of the total Contract Price will be dependent upon acceptance of the Work, in accordance with Paragraph 15.06 of the General Conditions, and good faith efforts to comply with these EBE participation requirements; subject to reduction in the event of non-compliance as provided in paragraph 9.03.E.

- A. **Request for Waiver** – If, at the time final payment application is made, Contractor has not attained the ten percent (10%) EBE goal, Contractor shall file with the final payment application a "Request for Waiver." Said Request for Waiver shall contain a written description of the efforts taken by Contractor to attain the ten percent (10%) EBE goal.
- B. **Determination of Waiver Requests** – The Vendor Compliance Department of the City of Fort Wayne shall examine all Requests for Waiver to determine if Contractor's efforts constitute good faith efforts to attain such goal and shall submit recommendations concerning said requests for Waiver for the final determination of the Board of Public Works of the City of Fort Wayne.
- C. **Good Faith Efforts.** – In determining whether or not the Contractor used "good faith" efforts, the following shall be considered:
 - 1. Whether the contract can be subdivided as determined by the Engineer and Administrator of Contract Compliance;
 - 2. Availability of certified EBE businesses to participate as subcontractors;
 - 3. Non-competitive price quotes received from EBE firms. The Board of Public Works' determination for granting a reduction or waiver of the goal because of higher quotes from EBE firms will be based on factors that include, but are not limited to the following:
 - a. The Engineer's estimate for the work under a specific contract;

- b. The Contractor's own estimate for the work under the subcontract;
 - c. An average of the valid prices quoted for the subcontract;
 - d. Demonstrated increase in other contract costs as a result of sub-contracting to EBE firm(s).
- 4. Documented measures taken by the Contractor to comply with the EBE participation goal;
- 5. EBE subcontractor failed to fulfill their obligation in regard to the time delivery of goods and/or services. Also in regards to the quality of the goods and/or services set forth in the bid specifications.
- 6. Such other matters as the Board of Public Works deems relevant.
- D. Consequences of Noncompliance – In the event the Board of Public Works approves a recommendation that Contractor failed to make good faith efforts at compliance, the Contract Price shall be reduced by the amount calculated as the difference between the EBE participation goal of 10% and the actual participation level met by the Contractor, but in no case shall it be reduced by more than 5%. Said amount shall be added to the City of Fort Wayne EBE Bond Guarantee Fund and Contractor agrees to accept the reduced amount as full payment under the terms of his/her Contract.
- E. Waiver Approved – In the event the Board of Public Works determines that a good faith effort to comply with these EBE participation requirements has been made, the Contract Price shall not be reduced, and the balance owing to the Contractor shall be paid in full.
