

BILL NO. R-23-09-06

ORDINANCE NO. R-_____

A RESOLUTION approving the purchase of Varonis data security services at a total cost of \$170,134.00 from and through Trace3, LLC. by the City of Fort Wayne, Indiana,

WHEREAS, the number of cyber-attacks on government increased by 95% from 2021 to 2022,

WHEREAS, the City of Fort Wayne, City Utilities, and Allen County wish to partner for the purchase of data security services,

WHEREAS, as the said data security services help build a data management program and proactive incident response,

NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA:

SECTION 1. That the purchase of Varonis data security services at a total cost to the city of \$170,134.00 is hereby approved in all respects.

SECTION 2. That the City is authorized and directed to take all action necessary for the purchase of this system by and through Trace3, LLC.

SECTION 3. That this Ordinance shall be in full force and effect from and after its passage and any and all necessary approval by the Mayor.

Subject: Varonis data security software

Members of City Council:

This ordinance is to authorize the purchase of software services needed for proactive data management at a cost of \$170,134 from Trace3, LLC. The total price is \$283,556 and will be shared with Allen County.

This service purchased in partnership with Allen County, Fort Wayne Civil City, and City Utilities. This is a three-year agreement, and the cost will remain the same throughout the term.

This software helps meet the security needs of the City, County and the Utility in the following ways:

- Provides a foundation for a data management program. It will make us aware of sensitive data in Windows, Microsoft 365, and Active Directory that may be shared in inappropriate ways.
- The software alerts us to geo-hopping, identifying suspicious logins from foreign countries.
- When security incidents happen, the software assists in building a timeline of the incident and activity of the threat actor.
- It expands our current capabilities by providing access to a proactive incident response team. The Varonis team will alert us to threats in real time.
