In order to be considered an Economic Revitalization Area (ERA), the area must be within the corporate limits of the City of Fort Wayne and must have become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings, or other factors which have impaired values or prevent a normal development of property or use of property. It also includes any area where a facility or group of facilities that are technologically, economically, or energy obsolete is located and where the obsolescence may lead to a decline in employment and tax revenues.

How does the property for which you are requesting designation meet the above definition of an ERA?

The property located in the city of Ft Wayne has become too small to fit our growing business.

In order to serve all of our northern Indiana and Ohio customers, we need to update and expand this

building to allow us to operate efficiently under one roof. Alternatively, we would have to look to surrounding counties

that are more closely located to our customers and build a new building and transfer some staff to the new location.
