ARTICLE 9—MISCELLANEOUS

9.01 *Terms*

Terms used in this Agreement will have the meanings stated in the General Conditions

9.02 *Severability*

Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall

be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

9.03 Emerging Business Enterprise (EBE) Participation

EBE Retainage Requirements – If the Contractor is in compliance with the provisions of the construction Contract the Owner will make payments for such work performed and completed. Pursuant to Executive Order 90-01 (amended 5-8-06); the Owner will retain five percent (5%) of the Contract Price to ensure compliance with the EBE participation requirements. Upon final inspection and acceptance of the Work, and determination by the Fort Wayne Board of Public Works that the Contractor has made a good faith effort to subcontract ten percent (10%) of the Contract Price to emerging business enterprises, the Contractor will be paid in full.

In the event there is a determination that good faith compliance with these EBE participation requirements has not occurred, appropriate reduction in the final payment pursuant to paragraph 9.03.E will be made.

If the Contract Price is in excess of \$200,000, the contract will be subject to the standard Board of Public Works escrow agreement. However, payments to the Contractor are not to exceed 95% of the total Contract Price until the Owner has verified that the Contractor has made good faith efforts to attain the 10% EBE goal stipulated in here within. Payment of the final 5% of the total Contract Price will be dependent upon acceptance of the Work, in accordance with Paragraph 15.06 of the General Conditions, and good faith efforts to comply with these EBE participation requirements; subject to reduction in the event of non-compliance as provided in paragraph 9.03.E.

- A. Request for Waiver – If, at the time final payment application is made, Contractor has not attained the ten percent (10%) EBE goal, Contractor shall file with the final payment application a “Request for Waiver.” Said Request for Waiver shall contain a written description of the efforts taken by Contractor to attain the ten percent (10%) EBE goal.
- B. Determination of Waiver Requests – The Vendor Compliance Department of the City of Fort Wayne shall examine all Requests for Waiver to determine if Contractor’s efforts constitute good faith efforts to attain such goal and shall submit recommendations concerning said requests for Waiver for the final determination of the Board of Public Works of the City of Fort Wayne.
- C. Good Faith Efforts. – In determining whether or not the Contractor used “good faith” efforts, the following shall be considered:
 - 1. Whether the contract can be subdivided as determined by the Engineer and Administrator of Contract Compliance;
 - 2. Availability of certified EBE businesses to participate as subcontractors;
 - 3. Non-competitive price quotes received from EBE firms. The Board of Public Works’ determination for granting a reduction or waiver of the goal because of higher quotes from EBE firms will be based on factors that include, but are not limited to the following:
 - a. The Engineer’s estimate for the work under a specific contract;

- b. The Contractor's own estimate for the work under the subcontract;
 - c. An average of the valid prices quoted for the subcontract;
 - d. Demonstrated increase in other contract costs as a result of sub-contracting to EBE firm(s).
- 4. Documented measures taken by the Contractor to comply with the EBE participation goal;
- 5. EBE subcontractor failed to fulfill their obligation in regard to the time delivery of goods and/or services. Also in regards to the quality of the goods and/or services set forth in the bid specifications.
- 6. Such other matters as the Board of Public Works deems relevant.
- D. Consequences of Noncompliance – In the event the Board of Public Works approves a recommendation that Contractor failed to make good faith efforts at compliance, the Contract Price shall be reduced by the amount calculated as the difference between the EBE participation goal of 10% and the actual participation level met by the Contractor, but in no case shall it be reduced by more than 5%. Said amount shall be added to the City of Fort Wayne EBE Bond Guarantee Fund and Contractor agrees to accept the reduced amount as full payment under the terms of his/her Contract.
- E. Waiver Approved – In the event the Board of Public Works determines that a good faith effort to comply with these EBE participation requirements has been made, the Contract Price shall not be reduced, and the balance owing to the Contractor shall be paid in full.

DIGEST SHEET

TITLE OF ORDINANCE. An ordinance approving a Construction Contract for Packard Area Street Lighting Improvements – RFP/BID #0834N between Indoor Wireless, Inc. and the City of Fort Wayne, Indiana, in connection with the Board of Public Works.

DEPARTMENT REQUESTING RESOLUTION. Community Development

SYNOPSIS OF ORDINANCE. Approves a contract for streetlight replacement within the Packard Area between Indoor Wireless, Inc. and the City of Fort Wayne, Indiana, in connection with the Board of Public Works. The contract amount is \$372,260.63. Indoor Wireless, Inc. was the lowest, most responsive bidder.

EFFECT OF PASSAGE. Upon passage, Indoor Wireless, Inc. will install new "Town and County" pedestrian-scaled streetlights in specific areas within south Fort Wayne. The affected locations encompass Thompson Avenue between Michigan Avenue and Broadway, Scott-Huestis and Maple between Broadway and Thompson, and Calhoun Street between Pettit Avenue and Paulding Road.

This initiative aligns with the ongoing implementation of the 2030 Packard Plan, adopted by the Common Council in 2023, and builds on the recent replacement of century-old sidewalks in the Broad River Neighborhood. The Packard plan emphasizes Crime Prevention Through Environmental Design (CPTED) improvements, involving physical modifications to the environment to foster natural surveillance and enhance public safety. The inclusion of adequate, pedestrian-scaled lighting along streets and sidewalks stands as a crucial element of CPTED principles. This approach has yielded positive results locally - the installation of streetlights along High Street in 2022 resulted in a 44% decrease in crime in the area.

EFFECT OF NON-PASSAGE. If this contract is not approved, construction of the project will not proceed. These specific areas were chosen partly due to elevated crime levels, which can be linked, in part, to inadequate lighting. Therefore, it is reasonable to anticipate that without approval of this contract, public safety issues may continue in these areas.

MONEY INVOLVED (DIRECT COSTS, EXPENDITURES, SAVINGS). The contract amount of \$372,260.63 will be funded from the Infrastructure line item of the Community Development Local Income Tax (LIT) budget.

Subject: Council Approval of a Construction Contract for Packard Area Street Lighting Improvements – RFP/BID #0834N between Indoor Wireless, Inc. and the City of Fort Wayne, Indiana, in connection with the Board of Public Works

Date: January 18, 2024

The Community Development Division requests the Common Council's consideration and approval of a construction contract with Indoor Wireless, Inc. for the Packard Area Street Lighting Improvements project. The designated areas include Thompson Avenue, between Michigan and Broadway, Scott-Huestis and Maple, between Broadway and Thompson, and Calhoun, between Pettit and Paulding. The proposed contract amount is \$372,260.63, which is 16.9% below the engineer's estimate.

This project aligns with the ongoing implementation of the Packard 2030 Neighborhood Plan, which was adopted by the Council last year. Emphasizing Crime Prevention Through Environmental Design (CPTED) improvements, the Plan seeks to enhance public safety through intuitive urban design techniques, such as pedestrian-scaled lighting, to deter crimes of opportunity and foster natural surveillance, addressing both real and perceived safety concerns.

The project involves the installation of Town and Country lights along streets which were identified as priorities due to inadequate lighting levels during the planning process.

Bids for the project were publicly advertised, with two companies submitting bids. Following a review by both Public Works and Community Development staff, it has been determined that Indoor Wireless, Inc. is the lowest and most responsive bidder. The bid tabulation is attached for your reference.

Funding for the contract will be sourced from Community Development's Local Income Tax (LIT) Distribution. Pending Council approval, construction is scheduled to commence this Spring, with substantial completion expected by August 31, 2024.

For inquiries, please contact me at 427-2144.

Thank you,
