Laser Shot manufactures the MMT Compact and is the only manufacturer of this product. Laser Shot's cameras, software, and firmware have been developed and configured by Laser Shot to work specifically with the Sim Range. Only Laser Shot's technology and software works with the MMT Compact as our technology is proprietary and has been designed to integrate with this product.

Laser Shot is the sole source from whom you can purchase Laser Shot technology and the associated training for the MMT Compact. Our products are protected by trade secrets and patents and are unique in the market. Laser Shot is the publisher, holder of all copyrights, and sole source for the only software that works with the MMT Compact.

Sincerely,

AJ Alexander
General Counsel

DESCRIPTION OF PROJECT / NEED

<p><i>Identify need for project & describe project; attach supporting documents as necessary.</i></p>	<p>The Marksmanship Training Simulator, aka Laser shot is more than just a firearms trainer. It is an advanced apparatus that is designed specifically for scenario-based training that prioritizes safety and effectiveness. It allows for the following:</p> <ul style="list-style-type: none"> • Enhanced Safety: Our simulator allows for realistic training without the risks associated with live ammunition. Trainees can practice in a controlled environment, significantly reducing the chance of accidents. • Realistic Scenarios: With a wide range of customizable scenarios, trainees can experience various high-pressure situations that they may encounter in real life. From active shooter situations to tactical decision-making, our simulator prepares them for anything. • Immediate Feedback: The simulator provides instant performance analysis, allowing trainees to understand their strengths and areas for improvement. This feedback loop enhances learning and retention. • Cost-Effective Training: By eliminating the need for ammunition and range time, our simulator provides a cost-effective training solution that can be utilized repeatedly without incurring additional expenses. • Accessibility: The simulator can be set up in various locations, making it accessible for different training schedules and allowing for remote training options. • Versatile Applications: Suitable for law enforcement, and civilian training, our simulator can be tailored to meet the specific needs of various organizations. • Skill Development: Focus on critical skills such as marksmanship, decision-making, and situational awareness, ensuring that trainees are well-prepared for real-world challenges. <p>Indiana Code 5-2-1-9 directs <u>mandatory</u> training in areas of De-escalation, scenario based or reality based training and working with mentally ill subjects. The scenarios available through the requested equipment are numerous and facilitate our compliance with the Indiana Law Enforcement Training Board.</p>
